

I. INTERNSHIP OFFERED

The Centre of Excellence in Integrated Circuits and Systems at RV College of Engineering, Bengaluru, offers an Industry Certified Internship that transforms students into Ready Engineers. This internship immerses students in multidisciplinary projects, enhancing their experimental, analytical, and design abilities. Leveraging the Centre's advanced infrastructure, the program provides invaluable opportunities for students to connect with professionals in the field of integrated circuits and systems. Through hands-on learning and personalised interactions with faculty researchers, students validate their skill sets and significantly boost their placement prospects. The internship modules, including **Basics of VLSI, Static Timing Analysis, and Physical Design**, focus on refining power, performance, and area efficiency, fostering expertise, and promoting innovation and sustainable solutions through industry collaborations.

TOTAL REVENUE EARNED: ₹283,140

Sl. NO	Mode of Generation	Amount	Year
1	Student Internship	₹63,000	2024
2	Student Internship	₹53,100	2024
3	Student Internship	₹1,00,800	2023
4	Student Internship	₹74,340	2022
5	Student Internship	₹45,000	2021
